<u>Exhibit No.</u>	<u>Description</u>
99.1	Energy Transfer Equity, L.P. Press Release dated May 15, 2016.

**ENERGY TRANSFER EQUITY RESPONDS TO THIRD WILLIAMS LAWSUIT
Believes Williams' lawsuit is meritless and like its other lawsuits will lead to delay**

DALLAS, TEXAS — May 15, 2016 — Energy Transfer Equity, L.P. (NYSE: ETE) (“ETE” or the “Partnership”) today released a statement from Kelcy Warren, the Chairman of the Board of Directors of its general partner, in response to last Friday night’s announcement by the Williams Companies, Inc. (NYSE: WMB) (“Williams”) that it filed an action in the Delaware Court of Chancery seeking a Declaratory Judgment and Injunction preventing the Partnership from terminating or otherwise avoiding its obligations under the merger agreement entered into with Williams on September 28, 2015.

Mr. Warren stated:

“ETE is disappointed that Williams, rather than seriously engaging in discussions regarding the existing transaction, has chosen to file a third separate lawsuit in the last six weeks regarding our pending merger. The filing of these lawsuits has contributed materially to the very delay in completing the Securities and Exchange Commission’s (“SEC”) review of the proxy statement/prospectus and proceeding towards a stockholder meeting that Williams complains about in its most recent suit.

Before this suit was filed, we were making progress towards clearing all SEC comments and believe we were close to finalizing the proxy statement/prospectus for the Williams stockholder meeting to vote on the merger. We further believe that ETE’s good faith efforts were reinforced by our recent agreement with Williams to amend the merger agreement to provide for a reduction of the time periods necessary for certain administrative matters. This amendment essentially provided nearly an additional month for the parties to finalize and mail the proxy statement/prospectus than was contemplated in the original merger agreement.

As we have previously informed Williams and as described in the Form S-4, we believe that even if the Williams stockholders approve the merger, the merger will still not be able to close due to a failure of a material closing condition given the substantial risk that Latham & Watkins LLP will not be able to deliver the 721(a) opinion. Accordingly, we believe Williams’ latest lawsuit is an attempt to gain undue leverage in and undermine future discussions regarding the pending merger and will only result in further delay. We have made multiple attempts to engage with Williams in a constructive dialog regarding a path forward that would be in the best interest of both companies and their respective equity holders. Before this most recent suit was filed, we reached out to Williams requesting such discussions. Williams has unfortunately taken steps to limit our communications with members of its Board, and did not respond to our most recent request before filing its third lawsuit.

In addition, despite material changes in circumstances since a majority of the Williams Board of Directors approved the merger agreement on September 28, 2015 and recommended that the Williams stockholders vote to approve the adoption of the merger agreement, we understand that the Williams Board of Directors has not updated its recommendation to take into account the impact of these material changes. We are concerned with the Williams Board of Directors’ decision in this regard, and believe the Board should reconsider its recommendation and decide if a majority of the directors continue to recommend that the Williams stockholders vote to approve the adoption of the merger agreement.

ETE intends to continue trying to cooperate and engage with Williams and will continue to comply with its obligations under the merger agreement, while also having to defend itself against these multiple lawsuits filed by Williams. ETE reserves all rights regarding potential claims against Williams and its Board of Directors.”

Energy Transfer Equity, L.P. (NYSE:ETE) is a master limited partnership that owns the general partner and 100% of the incentive distribution rights (IDRs) of Energy Transfer Partners, L.P. (NYSE: ETP) and Sunoco LP (NYSE: SUN). ETE also owns approximately 2.6 million ETP common units and approximately 81.0 million ETP Class H Units, which track 90% of the underlying economics of the general partner interest and IDRs of Sunoco Logistics Partners L.P. (NYSE: SXL). On a consolidated basis, ETE’s family of companies

owns and operates approximately 71,000 miles of natural gas, natural gas liquids, refined products, and crude oil pipelines. For more information, visit the Energy Transfer Equity, L.P. website at www.energytransfer.com.
